WORK EXPERIENCE

Frontend developer

Freelancer   **2024 August - present**

- I developed a site and extensions based on the orders I received from freelance sites
- I developed the authentication system of the site fullstack, using express.js, postgresql and react libraries.
- and currently I'm building a fullstack crm project for a learning center in my spare time

Frontend developer

Ministry of Innovation Development   **2023 February - 2024 August**

- I developed several websites using React and Next.js. I used additional libraries like Redux, Sass, Tailwind css, Styled-components, Ant Desing, Material UI, Redux, React Query, i13next, Framer motion, Redux.
- I improved caching and seo on the website.
- I made the website multilingual.

Internship

Proconnect digital agency   **2022 October - 2023 January**

- I worked here as an intern frontend developer, in the company's projects to create UI part of the site. I mainly used libraries like React, Sass, Ant design.
